🎯 Professional Summary

Passionate and dedicated Artificial Intelligence Intern with strong proficiency in Python programming, machine learning, and data analysis. Experienced in building AI solutions using cloud technologies such as Google Cloud Platform and AWS. Recognized for innovation, teamwork, and analytical excellence during internship at My Job Grow.

🎓 Education

Bachelor of Science (B.Sc.) Data Science

VIVA COLLEGE / MUMBAI UNIVERSITY

💼 Internship Experience

AI Intern — My Job Grow (Eduquirk Innovations Pvt. Ltd.) [June 2025 – August 2025 | Remote]

• Developed AI models using machine learning, deep learning, and reinforcement learning techniques.
• Processed large datasets to enhance model accuracy and data efficiency.
• Designed cloud-based AI workflows to support end-to-end solution delivery.
• Recognized for Outstanding Performance and Innovation (Certificate ID: MJG2025AI305).

💻 Technical Skills

Languages: Python (NumPy, Pandas, Matplotlib, TensorFlow, Scikit-learn)
Data Analysis: Data Cleaning, Visualization, Statistical Modeling, Predictive Analytics
AI & ML: Model Training, Evaluation, Feature Engineering, Automation Pipelines
Cloud Tools: Google Cloud Platform (GCP), AWS (Basics), Google Colab
Development Tools: Jupyter Notebook, VS Code, GitHub
Soft Skills: Problem Solving, Communication, Teamwork, Leadership, Project Management

🧠 Projects

1. Chatbot_LLaMA2
 - A Neon-Styled Conversational AI powered by Meta's LLaMA-2 & Flask
 - A powerful, real-time chatbot built using Meta's LLaMA-2 model, Hugging Face.

2. Language Translator Tool--"
- A simple language translator tool that takes text input from the user and translates it into the language of their choice using Python and Google Translate API.

3. GitHub AI Portfolio
- Published multiple AI and ML projects demonstrating model training, evaluation, and visualization.
- Features Python-based automation scripts, data visualization, and cloud-deployed solutions.
